

VIVEK SHARMA

FULL STACK DEVELOPER

vs246246@gmail.com | 09717968545 | New Delhi - India | @portfolio | Github | LinkedIn

PROFESSIONAL SUMMARY

Motivated Full Stack Developer with experience in building scalable web and mobile applications using modern technologies. Proficient in Java, Spring Boot, JavaScript, React, and backend development with REST APIs and databases. Skilled in developing end-to-end features, optimizing performance, and integrating third-party services. Passionate about writing clean, maintainable code and continuously learning new technologies. Works effectively in collaborative environments and fast-paced development teams.

EXPERIENCE

Freelance Developer

01.2023 – Present | Remote

- Built full-stack applications with React, Node.js, Laravel, and MySQL, including REST APIs and third-party integrations.
- Developed reusable UI components, optimized performance, and designed scalable backend architecture.
- Created and published mobile apps with offline support and shared NPM packages for React and React Native.

QuestLabs AI , Software Engineer

04.2024 – 02.2026 | Remote

- Built scalable SaaS features including workflows, segmentation, email campaigns, push notifications, webhooks, alerts, and project tracking systems.
- Contributed to an AI-powered website generator with visual editor and agent-based automation using full-stack development.
- Developed cross-platform mobile application with chat support, analytics, and real-time API integration.

EDUCATION

Full Stack Web Development (Full Time), Masai School, Bengaluru

12.2022 – 08.2023

Bachelor of Arts, University of Delhi, Delhi

06.2019 – 09.2022

SKILLS

JavaScript, TypeScript, React, React Native, Node.js, Laravel, Spring Boot, PHP, MySQL, MongoDB, REST API, Git, AI APIs

PROJECTS

Questera — SaaS Automation Platform

Tech: React, Node.js, MongoDB, REST API, AI APIs

- Built full-stack features including workflows, event tracking, webhooks, and AI integrations.
- Developed scalable modules using React, Node.js, Laravel, and MySQL.
- Integrated third-party APIs and real-time event systems for automation.
- Created reusable components and optimized application performance.

Greta AI — AI Website Generator

Tech: React, Node.js, Express, MongoDB, AI APIs

- Worked on an AI-powered website generator using AI agents for full-stack site creation.
- Built frontend and backend features with React and Node.js.
- Integrated AI APIs and webhooks for automation and real-time processing.
- Fixed bugs, improved performance, and enhanced existing features.

HelpHub — Customer Support Mobile App (Android & iOS)

Tech: React Native, REST API, Node.js, MongoDB

- Developed cross-platform support app using React Native with REST API integration.
- Connected with backend services for chat, notifications, and user data.
- Implemented conversation management, analytics, and real-time updates.
- Improved performance and fixed issues across Android and iOS.

Omnia AI — Workflow Generation System

Tech: React, Node.js, Express, MongoDB, AI APIs

- Built AI-powered workflow generator using Node.js, React, and AI APIs.
- Implemented webhook-based automation and dynamic workflow creation.
- Developed backend services and UI for workflow execution.

Elma AI — Email Campaign Generator

Tech: React, Node.js, Express, MongoDB, AI APIs

- Developed AI-based email campaign generator with React, Node.js, and AI APIs.
- Implemented campaign creation, scheduling, and content generation.
- Integrated REST APIs, templates, and user segmentation.

Additional Work

- Published Android apps (10K+ downloads) 
- Open-source React / React Native npm libraries
